

# Capability Statement

## Our Overview

Drill Doctors and RiteDrill are fast becoming the market leaders as an independent supplier of parts and service for all the major OEM branded drill rigs.

We work closely with owners and operators to increase and maintain blast hole drill rig utilisation. We seek to lower the costs to maintain and repair drill rigs. By only focusing on blast hole drill rigs, we have built up a specialist team and knowledge on what it takes to keep rigs working.

Based in the Hunter Valley, NSW, we offer decades of Rotary Blast Hole Drill experience, backed by our specialist on-site technicians and fitters, and the ability to undertake full drill rig overhauls and 24/7 spare part availability.

## What We Do!

We provide a one-stop shop for any small or large problem, repairs or parts associated with your drill rig. Whether old or new, we can provide you with product and service to meet your needs.

We understand the industry and strive to beat your expectations on quality, service and turnaround times.

## We support the following Blasthole Drilling Rigs:

- Caterpillar
- Bucyrus
- Terex/Reeddrill
- Metso Minerals
- Svedala
- Gardner Denver
- Sandvik
- Drilltech
- Cubex
- Epiroc
- Atlas Copco
- Ingersoll Rand

## Repairs, Rebuilds and Overhauls

Drill Doctors and RiteDrill can handle both small and large repairs and rebuilds - from component rebuilds to full drill rig overhauls and shut-downs. We can undertake the work at our fully stocked workshop in NSW, or our team can undertake the work at the mine site or customer's workshop.

## Our Extensive Range of Spare Parts

We stock in NSW an extensive range of products and emergency spares for all the major OEM brand drill rigs. Our product range is supplied by some of the most trusted and tested brands in the industry along with our own in-house manufactured products.

Quality is the priority, followed by availability and price.

### **Field Service - Specialised on-site hydraulic technicians**

We offer qualified technicians and fitters who have deep experience across all drill rigs.

Our fleet of technicians are experienced and equipped with mine site ready vehicles to service all rotary drills including scheduled maintenance and breakdowns.

### **In-house Manufacturing**

Our in-house manufacturing capabilities allows us the flexibility to meet urgent turnaround times. Our engineering team enables modifications and improvements to parts and manufacture new parts on site.

### **Our in-house manufacturing machines and capabilities include;**

- OKK CNC Mill 3 axis 1100mm x 610mm x 460mm
- MAZAK CNC lathe 2 axis 500mm x 900mm
- MAZAK Manual Lathe 440mm x 1500mm
- Fabrication services
- Oxy profile cutting
- Water cutting
- 3D Design – Drafting

### **Technical Support**

We provide ongoing technical support for your machines when you need it most. We will work tirelessly to find the answer to your problem and get you back up and running.

### **Innovation**

With more than 40 years of industry experience, we have developed a range of Innovative Technologies that extend the useful production life of components and systems that are the common cause of breakdowns.
